

Lander Search & Rescue 2021 Capital Campaign

Lander SAR is the Lander unit of Fremont County Search & Rescue, a volunteer arm of the Fremont County Sheriff's Department. We have 40 active members who keep our team organized and are on-call 24/7. We also tap into the strong outdoor community in Lander. We had a record number of calls in 2020 and expect the same in 2021, because people are recreating outdoors more during the pandemic. We would like to obtain a vehicle and get it ready before June, 2021 and may finance half the cost to get it in service before we pay it off.

Needs: A quick response vehicle can help us launch an initial team to get to critical incidents sooner. We consulted the Windriver 4x4 Club and the Facebook forum for SAR Professionals and decided that we need a used Jeep Wrangler Rubicon Unlimited, year 2012 or newer, with a lift kit, 35" tires, automatic transmission, winch, lights, navigation system, recovery kit, and radios. We can buy one and fix it up for about **\$35,000-\$40,000**. We are looking for sponsors who either want to just write us a check, or find a win-win solution where you use our name and this community cause for your sales or club promotion.

Sponsor recognition: We will have stickers made that sponsors can put on entrance doors or vehicles, saying they supported Lander Search & Rescue.

Major donors have the opportunity to have their name and/or logo put on the two vehicle wraps we will have made for the rear side windows. We can issue a press release recognizing your community support.

Leadership gifts can have a larger logo on the vehicle wrap, similar to what NASCAR does. We will take the final list of names and logos and let a graphic artist lay them out, with larger name size for larger gifts.

IRS Code TEGE: Donations are tax deductible since Lander SAR is a Tax Exempt Government Entity. Or, you can donate via our philanthropic partner, the Lander Community Foundation, a 501(c)(3) non-profit, who will forward your support to us at 100%.

Need more info? Contact John Gookin at 349-4084 or john_gookin@nols.edu.

I would like to support Lander Search & Rescue's capital campaign.
